

# MEXICAN MISSIONS, INC

PO BOX 293250 KERRVILLE, TX 78029

## NEWSLETTER – APRIL 2018

The Bible states...to go to the regions beyond, Jose Atalo is doing just that. He lives in Saltillo, Mexico but ministers to different missions he started in the mountain regions south, to share the Good News of the Gospel with the people there. His latest trip is not without difficulties; his truck needed some repairs to travel, but now fixed, loaded and ready, Bro. Atalo is traveling to the regions. The photo of the service was taken in

2016 but it shows the little mission until I get current ones.

We were introduced to Salvador by a friend and found him living in a one room little hut with his wife and 5 children. With the help of a wonderful Christian couple from Oklahoma, we built a two-bedroom, one bath little house and furnished it with new beds for everyone; a stove, refrigerator, and table and chairs and purchased food to give them a good start. A nice little house they could live in for a long time. We built Salvador Coronó's church around the year 2000 and his work continues and he started a mission church in Vera Cruz also. His church is now a hub of activity for the surrounding area. These are all the photos I have at the moment and are fairly recent. Sometimes the church is full to capacity. His wife Rosie takes the photos.

Received a new delivery of fabrics and 2 new sewing machines from Denise Knotley, Odessa, TX. God is so good to provide for the sewing class.

Pastor Mimi and Angel Garcia sent me photos of tamales they sold to raise funds for the church and also served to the people who attended the service.

This little church will begin to grow little by little, but Mimi is diligent in sharing God's love.

Veronica Ledezma with daughter, Yareli 19. Yareli was 3 years old when we first met this family. Veronica found herself in an extremely dire situation 16 years ago when she came to Victoria Bible Institute for our help. We have continued to assist her all these years and with our financial support are helping Yareli in her first year at the University of Reynosa. She wants a degree in Mass Communications at the moment. God's hand has been on this little family, as Veronica herself, is a walking miracle living through an attempted murder. Watching Yareli and her other siblings grow up has been a privilege and pleasure seeing the hand of God at work. Going to the University is changing the course of her family dynamics forever.

I left for another trip to McAllen delivering goods, Sunday April 8<sup>th</sup>. Had meetings with a couple of pastors and had them share their experiences of their daily life in Mexico. It's tough for the people, but God is faithful to provide their needs and for us too.

I thank the Lord daily for all he does in providing support for this ministry. Prayer is powerful and we appreciate you praying for us and the work; then the Lord provides our needs. We love the Lord and I am in awe of His Wonder and Glory. Oh, how we must praise and thank Him for everything, always.
